## OWNER / AGENT ASBESTOS STATEMENT

Under Colorado Regulation No. 8, Part B – Asbestos, Emissions Standards for Asbestos, The Colorado Department of Public Health and Environment ("CDPHE") requires all buildings be thoroughly inspected for asbestos in accordance with paragraphs IV.C.1., IV.D. and IV.F. by a Colorado certified asbestos Building Inspector prior to commencing renovation or demolition activities. Both the building owner and contractor performing the renovation or demolition work can be held liable for failing to comply with these asbestos regulations.

Please be aware that testing for the presence of asbestos and issuance of a permit by the state may require significant lead times as there are state and federal requirements that the application for demolition (or renovation if trigger levels of asbestos will be disturbed) must be postmarked or hand delivered at least 10 working days prior to the commencement of the project. Issuance of a building permit by Routt County Regional Building Department does not assure compliance with the State and Federal regulations.

More information and applications are available at the CDPHE website:

<http://www.cdphe.state.co.us/ap/asbestos/index.html> or by calling the Colorado Department of Public Health and Environment at (800) 866-7689 or (303) 692-3150.

I have read and understand the above information and agree to these requirements
