

Steamboat Basecamp Townhomes “Foundation Only” Permit Request

Date: 5/24/23

May Riegler would potentially like to request the issuance of a “Foundation Only” permit for the Steamboat Basecamp Townhome project (reference permit #SPRMU230307), so that below grade construction (i.e. mass excavation, grading, utilities, micropiles, and foundation concrete) may begin before the “Full Building Permit” is approved/issued. Please advise on whether this would be possible, and what deferred submittals would be required.
