Reference: Special Inspection Letter
Steamboat Springs Ski Area – Helical Pile Installation – Ticket Booth Building
2305 Mt. Werner Circle
Steamboat Springs, Colorado
Permit #B-17-579
SEAD Job # 16020

Dear Mr. Allen,

Steamboat Engineering & Architectural Design, Inc. (SEAD) has completed the required special inspection for the helical pile installation for the reference project. The helical piles were installed on October 31, 2017.

SEAD provided on-site observation of the pile installation and reviewed the final log sheet for the pile installation. (4) helical piles were installed in accordance with the construction drawings and meet with our approval. No changes or modifications are required.

If you have any questions or concerns with this letter, please do not hesitate to call.

Sincerely,

Steamboat Engineering & Architectural Design, Inc.
Jacob E. Mielke, PE, Project Engineer
