

2590 COPPER RIDGE DRIVE UNIT A
STEAMBOAT SPRINGS, CO 80477
OFFICE: (970) 879-5488

o 4 part
o Estimate in QB

Customer Name: SSRC

Customer Contacts: JAlbright@Steamboat.com 970-819-1209

Project Address: GSQ Bridge

Manufacturer's Limited Warranty: "Limited Lifetime"

High Point Roofing LLC Limited Guarantee on Labor: 2 Years

Job Specifications for:

- Supply all materials and labor for the scope of work as proposed.
- One Genie S-45 or CAT 1055 (available) lift will be used as a tie-off point and for roof access.
- Traffic access under the bridge will not be allowed during demolition due to nails and other debris.
- Supply one 10-yard dumpster said dumpster will be placed at the entrance to the bridge on the promenade.
- Demo existing asphalt shingles and felt paper, inspect decking for any visual issues.
- Dry the entire roof with Grace Ice and Water Shield underlayment.
- Install 24 Gauge prefinished flashings, flashings are limited to and include the following: D-Style eave/rake.
- Install GAF Timberline UHDZ shingles using manufacturer specific starter and ridge per manufacturer specification.

Terms for said project:

- Necessary snow removal during the project (more than 2") will be billed at \$55.00 per man hour and is to be pre-approved by builder or owner.
- Guarantee is voided if a contractor other than High Point Roofing LLC makes modifications of said work or any other work on the roof after High Point Roofing LLC has started work.
- High Point Roofing LLC is not responsible for other contractor damage to said roof which includes snow removal not performed by High Point Roofing LLC.
- If owner does not complete proper winter maintenance, i.e., ice damming mitigation, warranty work will be at the discretion of High Point Roofing LLC
- Weather conditions preventing installation per manufacturers specification is not the responsibility of High Point Roofing LLC.
- All estimates are per plans supplied or per High Point Roofing LLC field verification; any deviation from this will result in a change order.

- Grace Ice and Water only holds a UV warranty for 60 days after the initial installation, repair to Grace Ice and Water is at the discretion of High Point Roofing LLC and will be charged to the builder or owner.
- The Routt County Building department as of January 2018, requires a re-roof permit for any re-roof or repair projects including but not limited to single family residences, carports, commercial buildings, sheds, and detached garages. These costs have not been included in the proposed price and will be invoiced at our cost upon application of the permit plus a \$250.00 administration fee.
- Oil canning is not a cause for rejection of metal fascia, metal roof, or metal wall panels. Oil canning is an aesthetic issue that is subjectively identified and evaluated.
- Penetrations through a metal roof will require a Dek-Tite pipe flashing, if the contractors sub-contractors cannot provide them, HPR LLC will provide them at an additional cost.
- Penetrations through a metal roof will need to be placed within two feet of the peak; penetrations not located within the specified area will require a cricket or snow retention to be installed at an additional cost to the contractor.
- Snow retention inherently causes ice dams, without proactive measures said ice dams can void our installation guarantee.
- High Point Roofing LLC's guarantee is not inclusive of snow retention, the snow retention manufacturer only warrants the bracket and not its effect on the adjacent roofing materials.
- Heat tape is required in all roof drains, gutters, and downspouts when adjacent to or part of a High Point Roof assembly; failure to install heat tape will void any guarantees or warranty.
