TRITON® II
Side Mount Filters

Fiberglass Sand Filter without Valves

The original and still the industry standard. Our unique process creates a one-piece, fiberglass reinforced tank with UV-resistant surface finish for years of unequaled strength and durability. This unique method locks in fiberglass, preventing fibers from "blooming" under harsh conditions.

Features

Heavy-duty closure provides easy inspection, and features an easy-to-read pressure gauge with air relief valve

Swing-away diffuser allows instant access to sand and all internal parts

All internal parts are threaded for ease of service

Internal air bleed

Bulkhead connectors are threaded for easy installation and service

Combination sand and water drain makes servicing and winterizing fast and easy

Maximum Operating Pressure 50 psi
