Product Description

CLEAR 4 MIL INCREASE SAFETY SECURITY & PROTECTION Trusted Quality

EXCELLENT VISIBILITY AND CLARITY

S4MC is unmatched in terms of visibility and clarity. Good for homes and office buildings that are directly exposed to the public, these clear security glass films provide excellent safety and protection while remaining essentially unseen. These thick safety films are perfect for your windows.

STORM PROTECTION

In the event of high winds and flying debris, if the glass does break, the film holds the shattered pieces together, keeping the glass intact. This can prevent wind-driven rain from entering your home, which can cause water damage.

PREVENT SHATTERING, REDUCE ADDITIONAL DAMAGE

Security films are made of a strong, durable polyester material. When applied to windows, it creates a protective layer that absorbs and distributes impact energy, making the glass much harder to break open. This minimizes the risk of dangerous shards being propelled into your home.

EXCELLENT UV BLOCKING BARRIER

S4MC window film provides an excellent UV-blocking barrier. Being exposed to UV rays can cause skin problems such as premature aging skin and signs of wrinkles and eye problems. The S4MC film rejects about 99% of the UV rays, helping to reduce fading on your precious furniture, and pictures.

Window film installation tips

Experience a new level of comfort and style

WINDOW FILM INSTALLATION GUIDE / 3 min.

Our high-quality security films provide safety and protection as well as UV rejection. [Security Films Text]

Why does the film not stick to the window? / Why did the film fall off from the window a few hours later?

Which thickness should I get? / Should I use the 4 mil or the 8 mil?

Is the film applied on the interior or exterior side of the window?

Which of the two layers is the film, and which is the backing liner?

Why did bubbles or spots not adhering properly form after the film was installed?

Looking for specific info?

Ask Rufus or search reviews and Q&A

Can it be easily removed without damage? Does it affect visibility or natural light?

Does it provide protection from UV rays?

How customer reviews and ratings work

Customers say ai.

Customers find the window film looks great. However, the installation experience is mixed, with some saying it's easier than expected while others find it tedious. Moreover, the quality receives negative feedback, with several customers describing it as not great. Additionally, customers report issues with bubbles in the film.

Maryann O'Keeffe

Easier than I thought to install

Reviewed in the United States on October 8, 2020

Size: 36in X 12ft Verified Purchase

I watched the videos first and reviewed the instructions thoroughly. I DEFINITELY recommend a second set of hands, especially since it was a large area we were covering. She was unpeeling and spraying while I was holding and fastening. Looks great, no bubbles! Not sure how it will stand up to the "unbreakable" test since it would take an attempted break-in to check it and NO THANK YOU!

Adhesive strength

Reviewed in the United States on May 9, 2024 Size: 36in X 12ft Verified Purchase

So I attempted to paint my window film and was not pleased with how my DIY turned out. Ok, no big deal, I'll just peel it off. I cannot vouch for glass shatter protection, but it sure adheres well!

Easy but tedious install

Reviewed in the United States on December 21, 2024

Size: 36in X 12ft Verified Purchase

Follow instructions carefully and watch the video. Preparation is essential!!!!! Sticks great and make sure to have a helper. I thought it will help for people to not see inside my bathroom but you can definitely see in. Nonetheless great purchase

Low quality garbage. Needed this for zoning on new construction. This product is CHEAP CHEAP cheap quality. Not to mention it arrived two days late. Prime means nothing because they never deliver on time. BBB COMPLAINT FOR CONTINUED FALSE ADVERTISEMENT! Problem is Amazon kills local businesses, I couldn't go buy this anywhere. I had to wait for this to be shipped and it was trash. Amazon extorts consumers, charges them more money and never delivers on time. Utter garage!!

It's easier than you think - and it takes some work

Reviewed in the United States on April 25, 2020

Report

Size: 36in X 12ft Verified Purchase

We're so happy with this film so far. We bought it for our son's room as we live in earthquake country and we wanted him safe in case the glass shatters. The instructions were excellent and they provided a video that went into perfect detail how to do it. I was nervous but it worked beautifully! And I'm not the most handy person. Really pleased with the product!.

No energy savings but no broken windows either

Reviewed in the United States on March 17, 2019

Size: 36in X 12ft Verified Purchase

Expected more of a weatherproofing effect. Did nothing as far as energy savings go. No ones taken a ball bat to my window yet and the mower hasn't kicked any rocks at the house.

Tools inside, easy install

Reviewed in the United States on August 2, 2019

Size: 36in X 12ft Verified Purchase

Thought about this for a while. Turns out it's easier to install than I thought. Good idea including the 2 tools, both are ok. Preparing is the key, measure and read the information. Clean the corner of the windows very good. I used a headlight to help see the edging when I cut. Made a paper template and put the clear film on top, easy to see its square and even.
