The work description should be updated to:

Proposal to install 19 solar modules to the southern-facing roofspace, total system size will be 6.55 kW.

Thanks so much Malea,

Colin

Colin-

The current work description is "Proposal to install 13 solar modules to the southern-most facing roof space. System size will be 4.48 kW." What should I change this to??

I have sent the revised drawings out for review.

Here are the new fees. You may pay with a credit card online through ViewPermit or submit payment **with two checks** as follows:

- 1) \$357.50 made payable to *Routt County Treasurer*
- 2) \$311.30 made payable to *City of Steamboat Springs* (**both checks will be delivered to the Building Dept.**)

Thank you!
Malea

Here is the final permit for the installation we are planning.

The final valuation will now be \$17,755. I realize that will likely change our fee, just let me know whatever that comes to and I can come in and settle balance and pickup permit whenever is convenient.

Thanks so much Malea, apologies for the change.

Colin
