City Council Contact Form

Step 1

Note

Thank you for contacting the City of Steamboat Springs. Your comment has been received and will be forwarded to the appropriate city staff, who will respond within 3 to 5 business days.

All communications to City Council through this website shall be deemed public documents and are subject to the Colorado Open Records Act. This includes email addresses and any personal information that you included in your email. A notation of "Confidential" on the communication does not protect the document from public review.

The City Manager, City Attorney, City Clerk, and certain members of city staff, are copied on all emails in order to better assist with your inquiry.

Questions or Comments

Please select the department(s) you want to contact:	City Council
--	--------------

Please leave your comments or questions below.	Hi, I have concerns about potential flooding of homes across Walton Creek that would be created by building 2 hotels, and an access road and parking lots for the hotels. The hydraulic study done for the Comfort Suites was not adequate. A single hydraulic study
--	---

has been done for the development of the 2 new hotels. It seems that it would be prudent to have an additional study done by another outside source before approving a development plan.

Also, with all the wildlife that frequent Walton Creek, an environmental impact study would be a good idea before developing the area.

Thank you for your consideration,

Leila Kruelskie
