I am writing to you concerning the proposed subdivision at Indian Meadows to create two large box hotels on a three-acre plot. I understand that this proposal was forwarded to City Council by the Planning Commission for consideration at your meeting of August 22nd. I further understand that the proposed hotel development is intimately related (via a developer's "Extraction Fee") to construction of a new bridge connecting Stone Lane to U.S. Route 40, crossing Walton Creek.

We live at 3945 Whistler Road and are deeply concerned about the impact of a Stone Lane bridge. Traffic flow will increase dramatically, ruining the character of this quiet, family-oriented neighborhood and creating health and safety hazards for all of us who live here, especially our children and grandchildren.

It is difficult to see any beneficial effects on traffic flow from the proposed bridge. Shunting cars from Route 40 to Whistler Road will simply create a pile-up of traffic at the intersections with Walton Creek Road and Village Drive, likely necessitating introduction of traffic lights or roundabouts.

Construction of a Stone Lane bridge is a flawed idea and should be rejected by City Council. Thank you for kindly considering this opinion, which I know is widely shared throughout the neighborhood.

Chris Godfrey
