

“No-Rise” Certification

This is to certify that I am a duly qualified registered professional engineer licensed to practice in the State of Colorado.

It is further to certify that the attached technical data supports the fact that proposed Lot 8 and 9 Floodplain Enhancements (Name of Development) will not impact the 100-year flood elevations, floodway elevations, or floodway widths on The Soda Creek (Name of Stream) at published sections in the Flood Insurance Study for the City of Steamboat Springs dated February 4, 2005 and will not impact the 100-year flood elevations, floodway elevations, or floodway widths at unpublished cross-sections in the vicinity of the proposed development.

Attached are the following documents that support my findings:

No Rise Evaluation Letter

Sheets C2 - Floodplain Development Plans

Date: 06-20-2024

Signature: Walter Magill

Title: Civil Engineer, Land Surveyor
