

December 3, 2024

To Whom it May Concern:

Twin Enviro has reviewed the revised site plan, dated 12/3/2024, for the proposed townhome development at 2075 Walton Creek Rd. as well as the vehicle tracking plan prepared by Baseline Engineering.

Twin Enviro agrees that it can service the site with the Freightliner M2 106 truck, which is approximately 26 feet long, and 8 feet wide.

The truck will be able to enter both driveways head-first, complete a 3-point turn, and exit the site head-first. The truck will not need to back out of either driveway.

Feel free to reach out to me with any questions.

Best Regards,
